The Drupal Coffee Exchange

Table 1 - 9:00 AM

Many of us in the Drupal community enjoy coffee, and the Drupal Coffee Exchange is a way to celebrate the magic elixir that many of us use to fuel our days. The Drupal Coffee Exchange a way for community members to stay caffeinated and share their favorite coffees between enthusiasts. It's unique, it's fun, and it's become a creative and complementary way to participate in our community...a reminder our community goes well beyond the commits. So bring some coffee, take some coffee and make sure to register below so you can do both! We'll have a table setup to help facilitate the Exchange.

Speaker: **AmyJune Hineline**

CWG Office Hours

Table 1 - 1:00 PM

The mission of the Community Working Group (CWG) is to foster a friendly and welcoming community for the Drupal project and to uphold the Drupal Code of Conduct. The CWG acts as a group to maintain documentation and develop processes and initiatives focused on the health of the community. This BOF would serve as an in person version of the quarterly Open Office meeting where we can discuss policy and procedures with the community, together in the same room. Some potential discussion topics: New CoC, Nudges, CoC contact training.

Speaker: **Mark Casias**

Mentoring Orientation

Table 1 - 2:00 PM

Join us to learn how to be a mentor during Contribution Events

Speaker: **Chris Darke**

DDEV Office Hours

Table 2 - 2:00 PM

Come talk about anything DDEV-related. Do you have a problem you want to solve? A feature you'd like to propose? Come talk about all things DDEV.

Speaker: **Randy Fay**

Admin UI

Table 1 - 3:00 PM

We are working a new Administration Navigation Toolbar that will eventually replace the existing core Toolbar. With this BoF we want to gather community feedback on the current implementation and ideas for improvements. And hopefully people willing to get involved too. We'll have environments ready to test.

Speaker: **Cristina Chumillas**

The Drupal API Client

Table 1 - 4:00 PM

Funded as part of the Pitch-burg Innovation Contest, The Drupal API Client has assembled a group of contributors in order to combine the best of existing Drupal API clients into a set of utilities that can both address common use cases with little configuration, and also be extended to support the needs of a diverse JavaScript ecosystem. We've made substantial progress since initially proposing this project at DrupalCon Pittsburgh, and want to use this BOF to discuss where the project stands, where we see it going, and how you can contribute. We'll keep discussion open, but could cover:

- * JSON:API Client 1.0 release feedback
- * Projects that are using or could use this client as a dependency.
- * Possible next steps for the project.
- * Our goal of publishing this package under the Drupal namespace on NPM.
- * Details on how you can contribute and provide feedback at DrupalCon.

Speaker: **Brian Perry**

From Lando to DDEV (let's talk about any concerns)

Table 1 - 4:30 PM

Migrating to a new system can be daunting tasks, but what if you could share your concerns with someone who has done it before.

Speaker: **Bernardo Martinez**

G130

Drupal Recipes Initiative Contribution

Table 1 - 1:30 PM

Join us to learn how to contribute to the Drupal Recipes Strategic Core Initiative. Come help be a part of the team that is working to create a method for applying functionality to Drupal simply and safely using recipes! We have tasks in development, documentation, site building, and recipe creation.

Speaker: **Jim Birch**

DDEV Governance into the future

Table 1 - 2:30 PM

DDEV currently has a volunteer advisory board, but needs to develop a more formal governance system into the future. Come and brainstorm about this pathway.

Speaker: **Randy Fay**

Design Systems in Higher Ed

Table 1 - 3:30 PM

Managing hundreds of websites for a major university requires ensuring that Branding, Accessibility and User Experience are front and center. Join us as we discuss what folks are using to manage these expectations without worrying about someone going off the range.

Speaker: **Chaz Chumley**

G131

Get help converting your project from DrupalCI to GitLab CI

Table 1 - 1:00 PM

Come for advice and practical steps on how to convert your drupal.org projects from DrupalCI testing to GitLab CI testing

Speaker: **Gábor Hojtsy**

Drupal4Lib

Table 1 - 2:00 PM

Come share best practices about how galleries, libraries, archives, and museums are using Drupal to serve their communities. Connect with fellow GLAM Drupalers.

Speaker: **Jacob Ineichen**

These go to 11! Get help porting projects to Drupal 11

Table 1 - 2:30 PM

Bring your Drupal 11 porting questions related to drupal.org projects, custom code or even whole sites.

Speaker: **Gábor Hojtsy**

DDEV From The Beginning

Table 1 - 3:00 PM

We'll start on a completely fresh machine and install DDEV and use it on an existing or new project. We can do all of this in just a few minutes

Speaker: **Randy Fay**

Data Layers: Google Tag Manager and Google Analytics

Table 1 - 4:00 PM

Share your experiences with GTM and GA4, reflecting on the transition from UA, exploring GTM's capabilities, and discussing the pros and cons of using it for script management.

Speaker: **Glenn Friesen**

G132

DDEV: Create a DDEV Add-on in 20 Minutes

Table 1 - 1:30 PM

It's so easy to create a DDEV add-on. We'll make a working, useful DDEV Add-on from scratch

Speaker: **Randy Fay**

Event Organizers Roundtable

Table 1 - 2:30 PM

Open discussion time for Drupal Event Organizers to gather and for others who are interested in organizing their own events or learning more about the Event Organizers Working Group (<https://www.drupal.org/eowg>).

Speaker: **Sean Walsh**

Make your own DDEV hosting Provider

Table 1 - 3:30 PM

Do you need to `ddev pull` from a specialized hosting or other database source? It's easy to create your own configuration so you can `ddev pull prod` or `ddev pull staging` or anything else. We'll build one from scratch, experimenting with pulling a zipball from GitHub.

Speaker: **Randy Fay**

Project Browser for module maintainers

Table 1 - 4:30 PM

Discuss ways that interested folks can contribute to the Project Browser Initiative. Additional details on discussion topics will be added here as DrupalCon gets closer and we have a better idea of what is relevant at that time.

Speaker: **Leslie Glynn**

Drupal Recipes Initiative Contribution

Table 1 - 1:30 PM

Join us to learn how to contribute to the Drupal Recipes Strategic Core Initiative. Come help be a part of the team that is working to create a method for applying functionality to Drupal simply and safely using recipes! We have tasks in development, documentation, site building, and recipe creation.

Speaker: **Jim Birch**

Layout Builder - REST & JSON:API Support

Table 1 - 2:30 PM

Discussions of next steps on how to make Layout Builder data able to be read from JSON:API or other serialization methods for decoupled implementations.

Speaker: **Kevin Quillen**

Drupal Developer Survey 2024

Table 1 - 3:00 PM

In 2024 the Drupal Local Developer Survey was revived with responses from over 800 Drupal developers world-wide. The survey asks Drupal devs about the tools, practices, and technology they use to make great Drupal websites, and what their thoughts are for the future of Drupal development. You can see the results of the 2023 survey here: <https://www.ironstar.io/devsurvey23/>. In 2024, the survey will return taking place from late March to early April, and the results will be published on May 1, 2024. This BoF will be for anyone interested in reviewing the results and discussing the questions and process used to collect them. We'd love to get feedback from the community on how informative and useful the survey is, and if there are any questions they'd like to see included in the 2025 survey.

Speaker: **Michael Richardson**

Get help migrating from Drupal 7 to Drupal 10

Table 1 - 4:30 PM

Bring your questions, issues about migrating from Drupal 7. We plan to have experienced migration maintainers to help attendees.

Speaker: **Gábor Hojtsy**

Data Layers: Google Tag Manager and Google Analytics

Table 2 - 4:30 PM

Share your experiences with GTM and GA4, reflecting on the transition from UA, exploring GTM's capabilities, and discussing the pros and cons of using it for script management.

Speaker: **Glenn Friesen**

G131

Get hands on help using ECA and learn about the roadmap

Table 1 - 1:00 PM

ECA being the powerful tool for ambitious site builders in Drupal, there is a growing eco-system around it with different UIs, third-party modules that integrate with ECA, and a number of resources for learning and sharing experience. It's easy to get overwhelmed. This BoF helps to learn about all these aspects of ECA and let's the community share experiences and ideas on how that U can be improved. We will be sharing ECA models for common problems, e.g. for content moderation, notifications, external services, and more. Implications of the BPMN.io user interface will be discussed in light of how that could be more tightly be integrated with Drupal APIs, which will then also open the floor for the general roadmaps towards ECA 2.0 for Drupal 10.3+ and 11.

Speaker: **Jürgen Haas**

Tech Bosses Assemble!

Table 2 - 1:00 PM

Join this Birds of a Feather discussion with fellow leaders to share insights and strategies for managing high-performing development teams. We'll cover various topics from management approaches and monitoring team health, to fostering a strong company culture, problem-solving, and preventing burnout. This is an excellent opportunity to ask questions, share your experiences, and learn from our community of tech managers and leaders.

Speaker: **Mark Dischler**

The IXP initiative - Building a path for newcomers

Table 1 - 3:00 PM

In DrupalCon Lille we officially started the IXP Initiative. The IXP Fellowship Initiative is a community-driven initiative to create incentives for companies to guide new developers through the very beginning of their career in Drupal. It seeks to address several issues:

- Even ""Junior Drupal Developer"" roles often require at least 6mo-1yr of experience.
- Companies who invest in early development roles and emerging talent make a large investment in talent development, but then larger organizations in wealthier countries are able to hire the newly trained developers away at rates they can't compete with.

We cannot solve the differences in developer salaries, but we can try to find a way to ensure that companies are rewarded for their investment in training new developers, even if they are hired away. Lets make this a reality! <https://www.drupal.org/community-initiatives/ixp>

Speaker: **Carlos Ospina**

Drupal 7 EOL Soft Landing

Table 1 - 3:30 PM

Since support for Drupal version 7 is ending Jan 5, 2025, the Drupal 7 Soft Landing Initiative aims to create resources and tools to assist Drupal 7 users, and prepare for what comes next. The main drive is to help move these legacy sites to a modern solution that will be supported for longer. Several of the initiative members will be in attendance, and we'd like to hear from and talk with interested members of the community

Speaker: **Luke McCormick**

G132

Drupal / CiviCRM Integration

Table 1 - 1:30 PM

Let's have a discussion about CRMs! CiviCRM is an open source, open web, CRM with sophisticated Drupal integration via the CiviCRM Entity and Webform CiviCRM modules. Learn about features and customization capability. Come tell us how you leverage CRMs.

Speaker: **Mark Hanna**

Growth Unbound: A Discussion Architecting Scalable Solutions for Tomorrow's Content Challenges

Table 2 - 1:30 PM

"Whether we are creating, managing, or strategizing content, the landscape is shifting beneath our feet. Traditional content management approaches are buckling under the pressure of new digital demands, leaving organizations struggling with inconsistent messaging, inefficient processes, and fragmented audience experiences. Content is more important than ever but most organizations still lack (and will continue to lack) dedicated digital professionals owning content across all channels. In this BOF we want to share best practices, organizational tactics, technologies and content strategy techniques that you are using to solve challenges.

Speaker: **Thiemo Müller**

New

Table 1 - 3:30 PM

It will going to be my first time participation with Drupal at Portland.

Speaker: **Gabriel Asghar**

Improving the Drupal.org Developer Experience

Table 1 - 3:30 PM

Drupal.org will get a marketing makeover, but where does that leave developers and documentation? We propose to:

- Implement Docs as Code & Provide Starter Templates for new contrib projects. Extend the current module and theme scaffolding repos to include documentation setups & starter kits.
- Fully integrate Docs as Code into Drupal UI/UX. Revamp the developer section on Drupal.org to include this more robust documentation.
- Revamp Developer Experience & Navigation. Revamp the IA of the developer/docs section of Drupal.org and offer enhanced functionality to reduce burdens.

Join us to discuss and brainstorm!

Speaker: **Christoph Weber**

Mentoring Orientation
