# Some history

Platform.sh, the origin!

A photograph of two men standing back-to-back on a beach, looking out at the Golden Gate Bridge in San Francisco. The man on the left has a beard and is wearing a grey jacket. The man on the right has long hair and is wearing a dark blue jacket. The bridge is visible in the background under a blue sky with some clouds.

Constant, oppressive drizzle?

**fred** 3:46 AM

Rain. A lot of rain. Every. Day. Rain.

Rain, Pike Place Market, Space Needle, Mount Rainier, Coffee, Bigfoot

Bruce and Brandon Lee are buried in the Lakeview Seattle Cemetery. Be sure to wear waterproof shoes/boots and take an umbrella, because it will probably be raining... (edited)

**Savannah Bergeron** 6:55 AM

Comforting gray skies, rain, drizzle, an avoidance of umbrellas and an abundance of boots. (edited)

We have consensus here...

What can go wrong?

# What will happen

- Create, configure and deploy a Drupal 8 site
- Create and expose content via a REST API
- Create, configure and deploy a Vue.js application
- Consume the REST API to display content from the Vue.js application
- Integrate the development workflow with GitHub
- Go Live!
- ..... In 30 minutes!

**IMPOSSIBLE!**

npm install & composer update
