Getting Discovery Right

The foundation of project success

Will Huggins

zoocha.com | @willhuggins | @zoocha

Discovery

Session Outline

- Discovery - lessons from history
- The role of discovery
- The evolution of agile
- Discovery tools
- Making it happen

Lessons from history

1996

Oak Brook,
IL

ARCH
Deluxe™

\$100m+

\$ 150m +

A red, textured stamp with the word "FAIL" in a bold, sans-serif font. The stamp is tilted slightly clockwise and is set within a double-lined rectangular border. The background is white, and the stamp has a grainy, ink-like appearance.

FAIL

FAIL

Too
expensive

Too different

Not different
enough

Problem

Solution

The Role of Discovery

“If I had an hour to solve a problem I'd spend 55 minutes thinking about the problem and five minutes thinking about solutions.”

Problem

Solution

The role of discovery...

...is really about the 'why'

HOW
are we going to do
it?

WHAT
will it be?

WHY
do we need this?

The Evolution of Agile

Agile Software Development

A brief history

1995 - Scrum

1996 - Extreme Programming

1997 - Feature-Driven Development

2001 - Agile Manifesto

2011 - The Lean Startup

Individual and interactions

over

Process and tools

Working software

over

Comprehensive
documentation

Customer collaboration

over

Contract negotiation

Responding to change

over

Following a plan

Agiles Tools

They are great for building stuff!

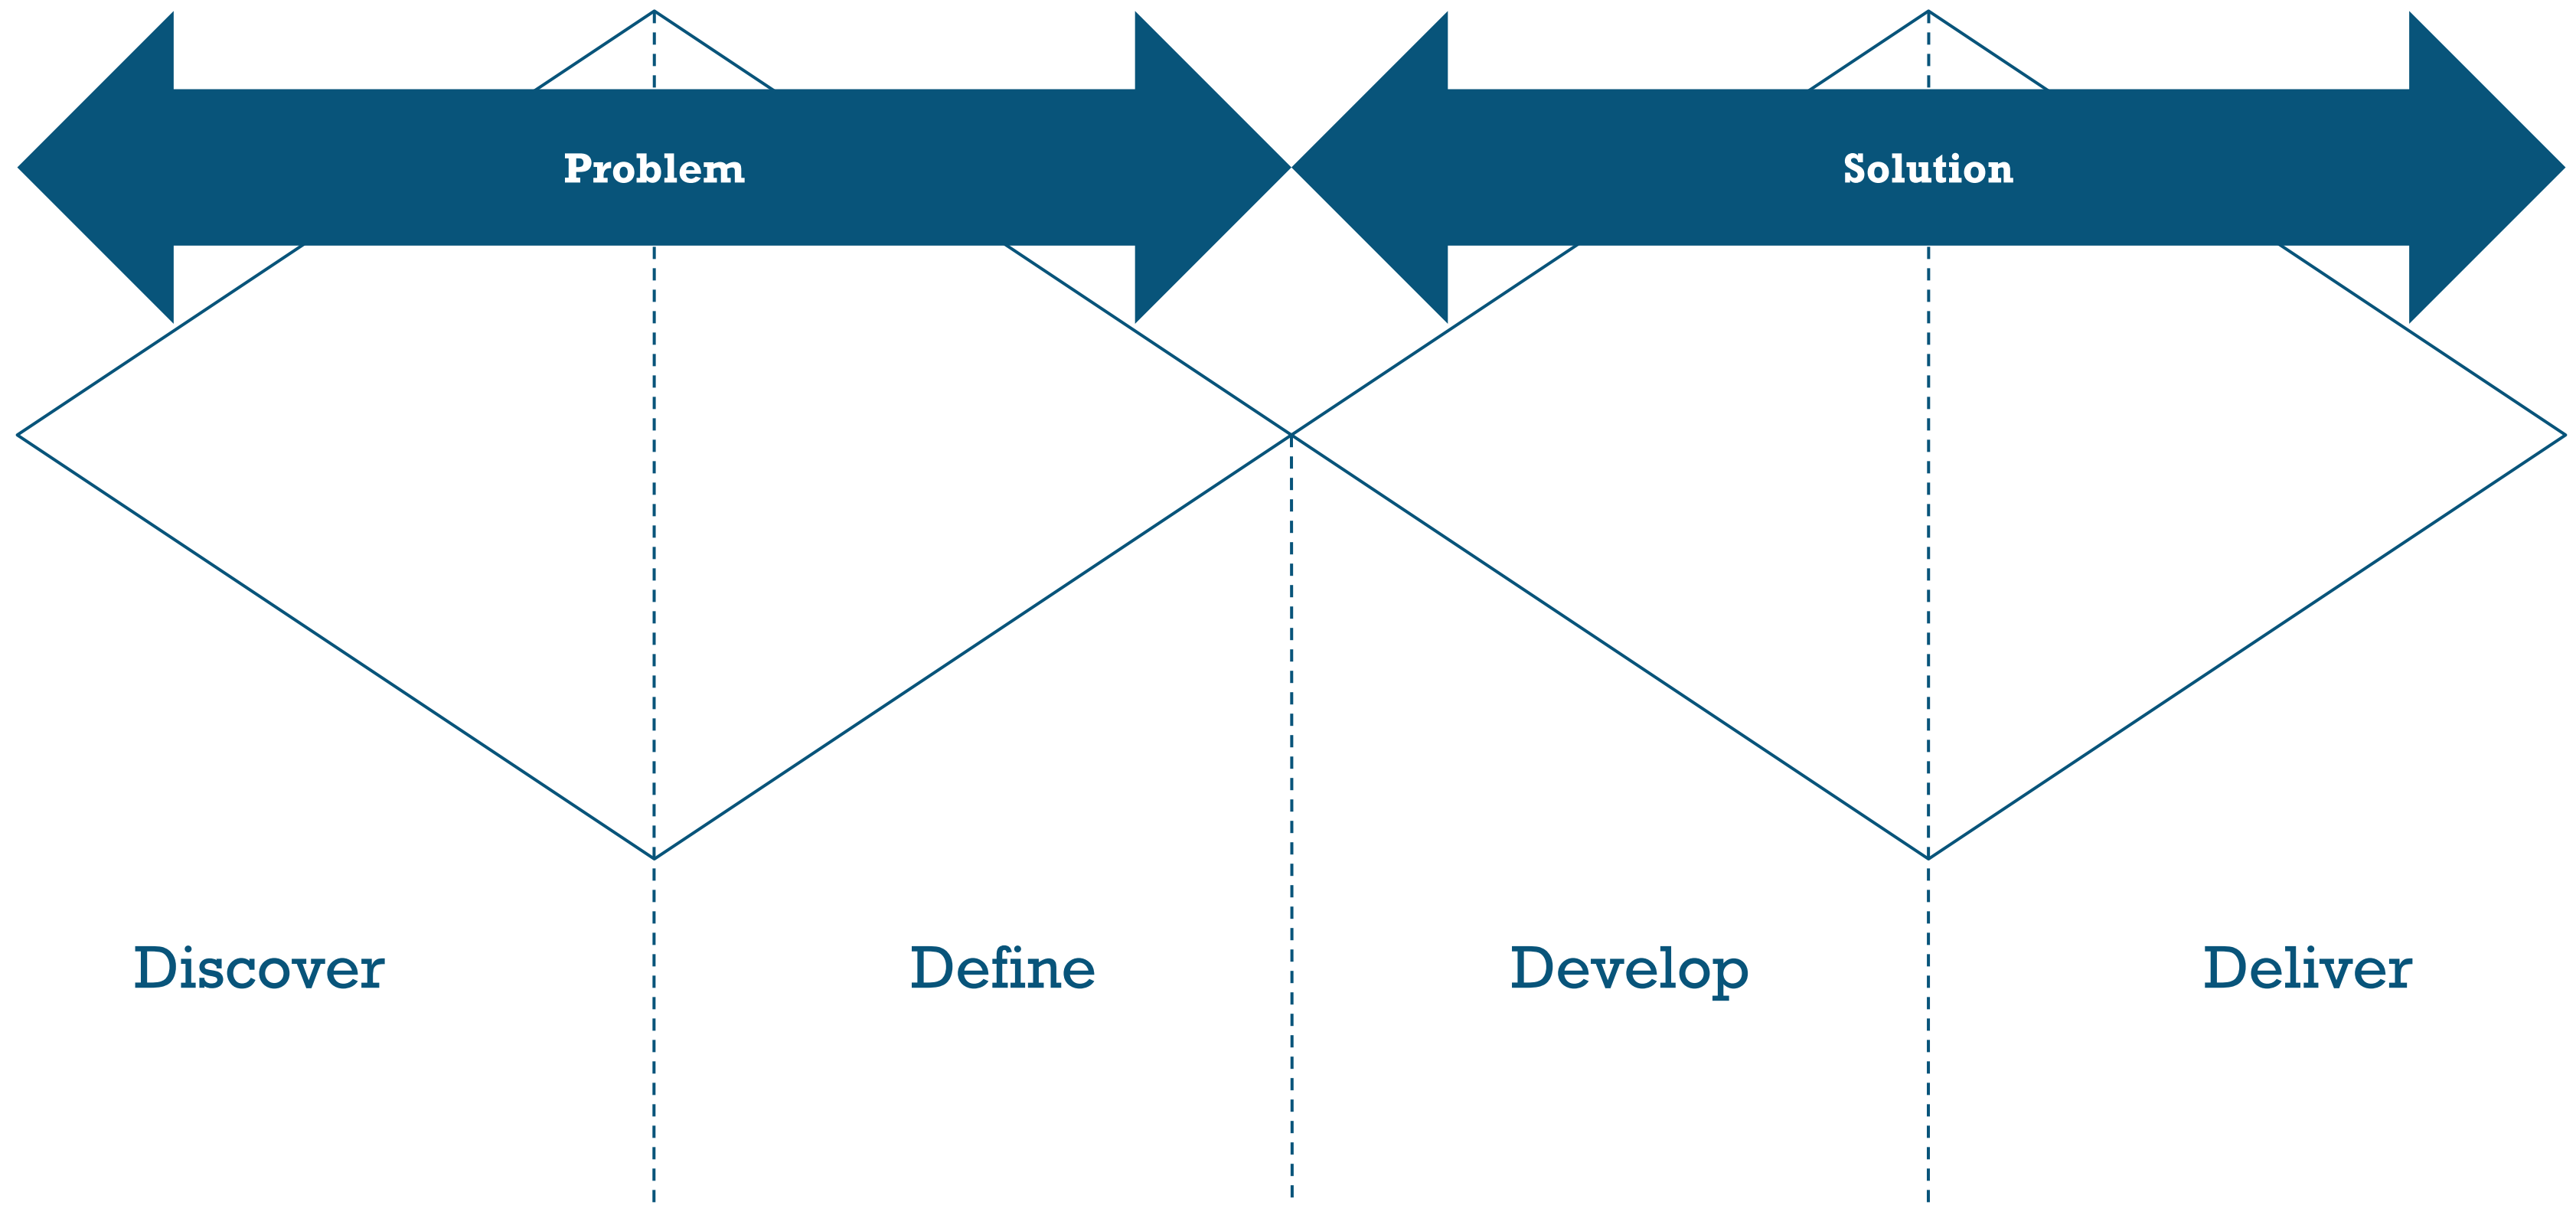

Agile....

It's not all about 'how' or 'what'!

It's also about why!
Define the right problem

The risk of getting discovery wrong

- Confirmation bias discovery
- Partial team discovery
- Outsourced discovery
- Big bang discovery

“If you define the problem correctly, you almost have the solution.”

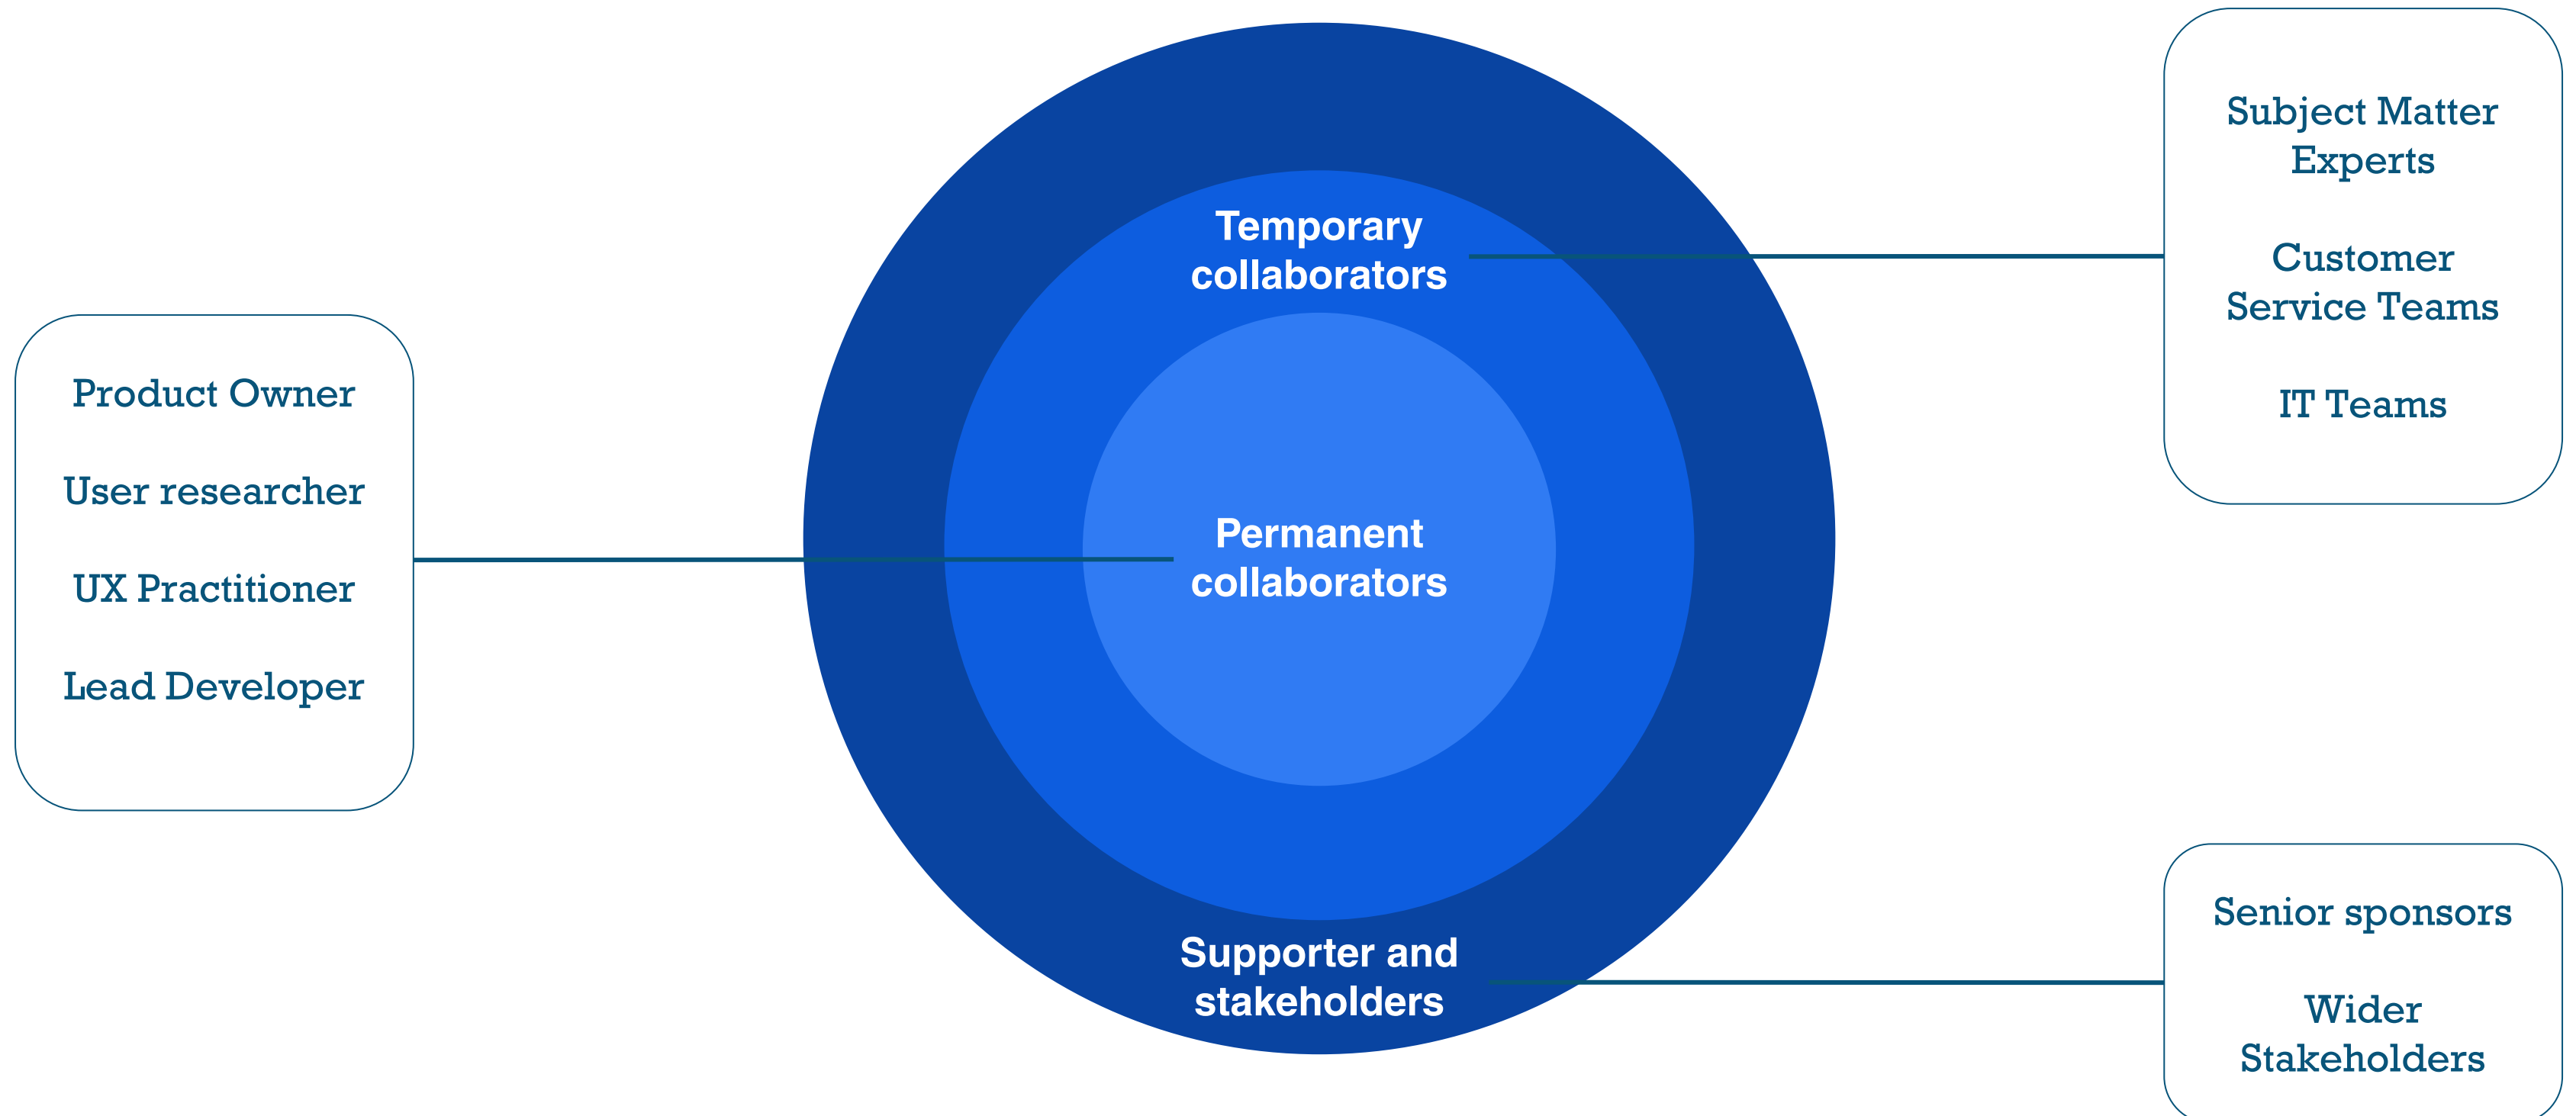

Discovery Tools

Assembling your Discovery Team

Nurturing cross functional collaboration from the start

Communication

Nothing beats listening!

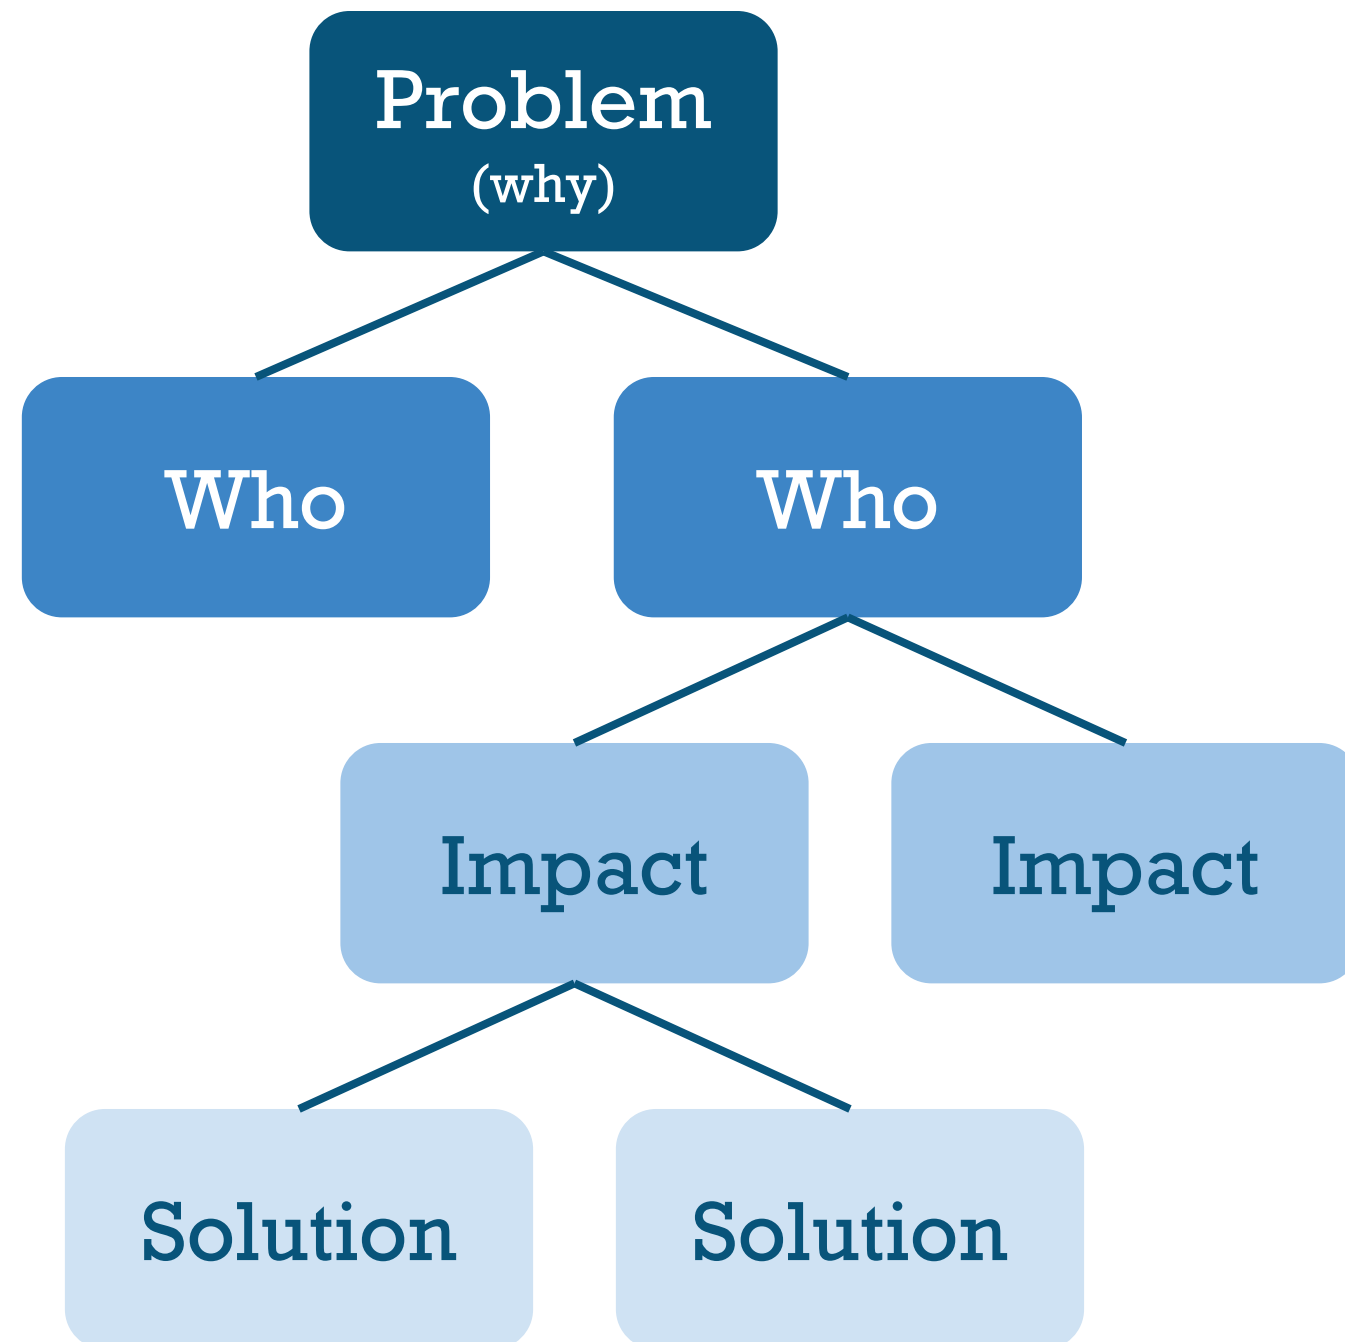

- End users
- Stakeholders
- Team members
- TIP: work hard to reach marginalised groups

Impact Mapping

Helping to focus on the right outcomes

- Outcome oriented
- User centred
- Highlights assumptions
- Fast & Efficient planning process

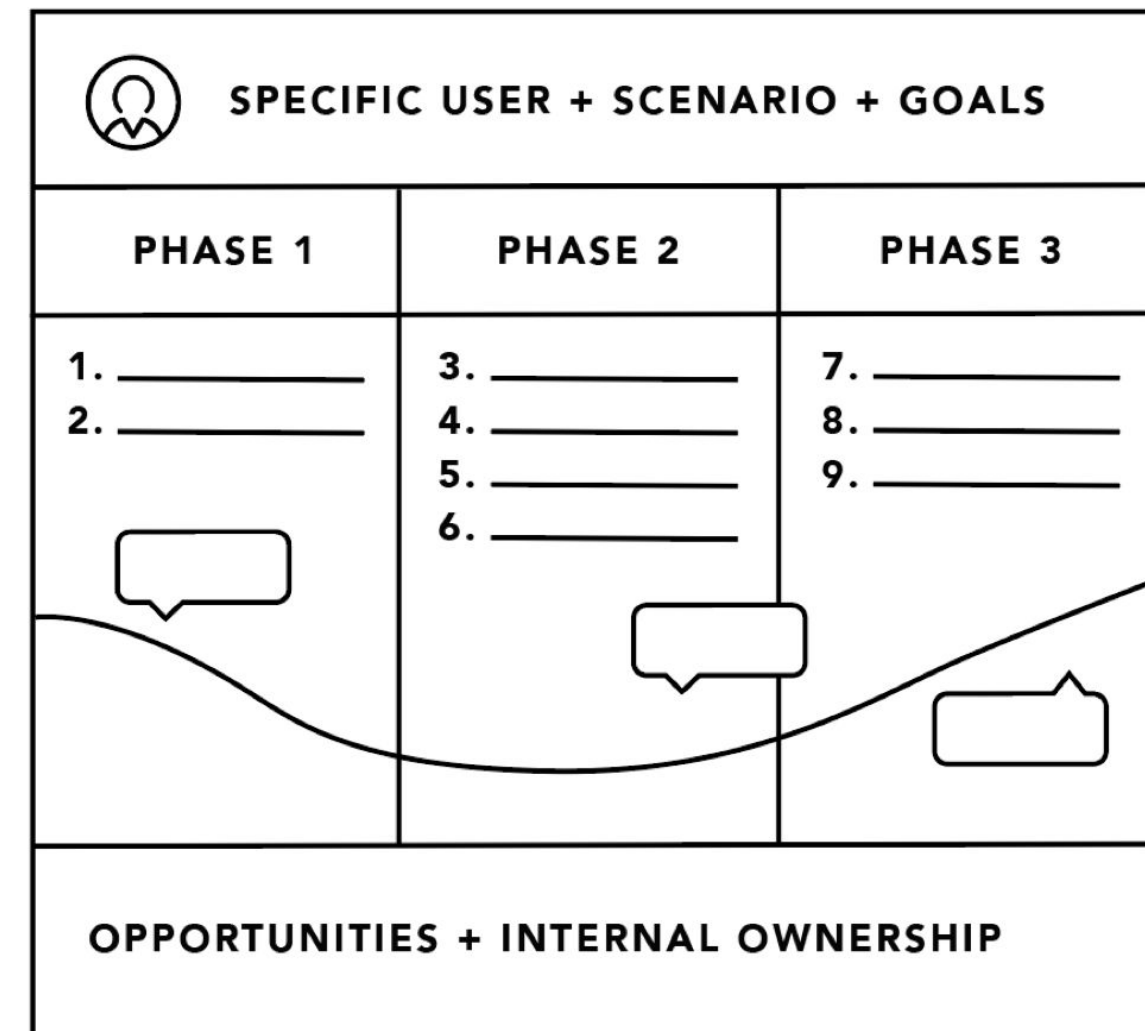

User Journey Mapping

Keeping the focus on the user

- User centric stories
- Encourages collaboration
- Demands research
- Visual output

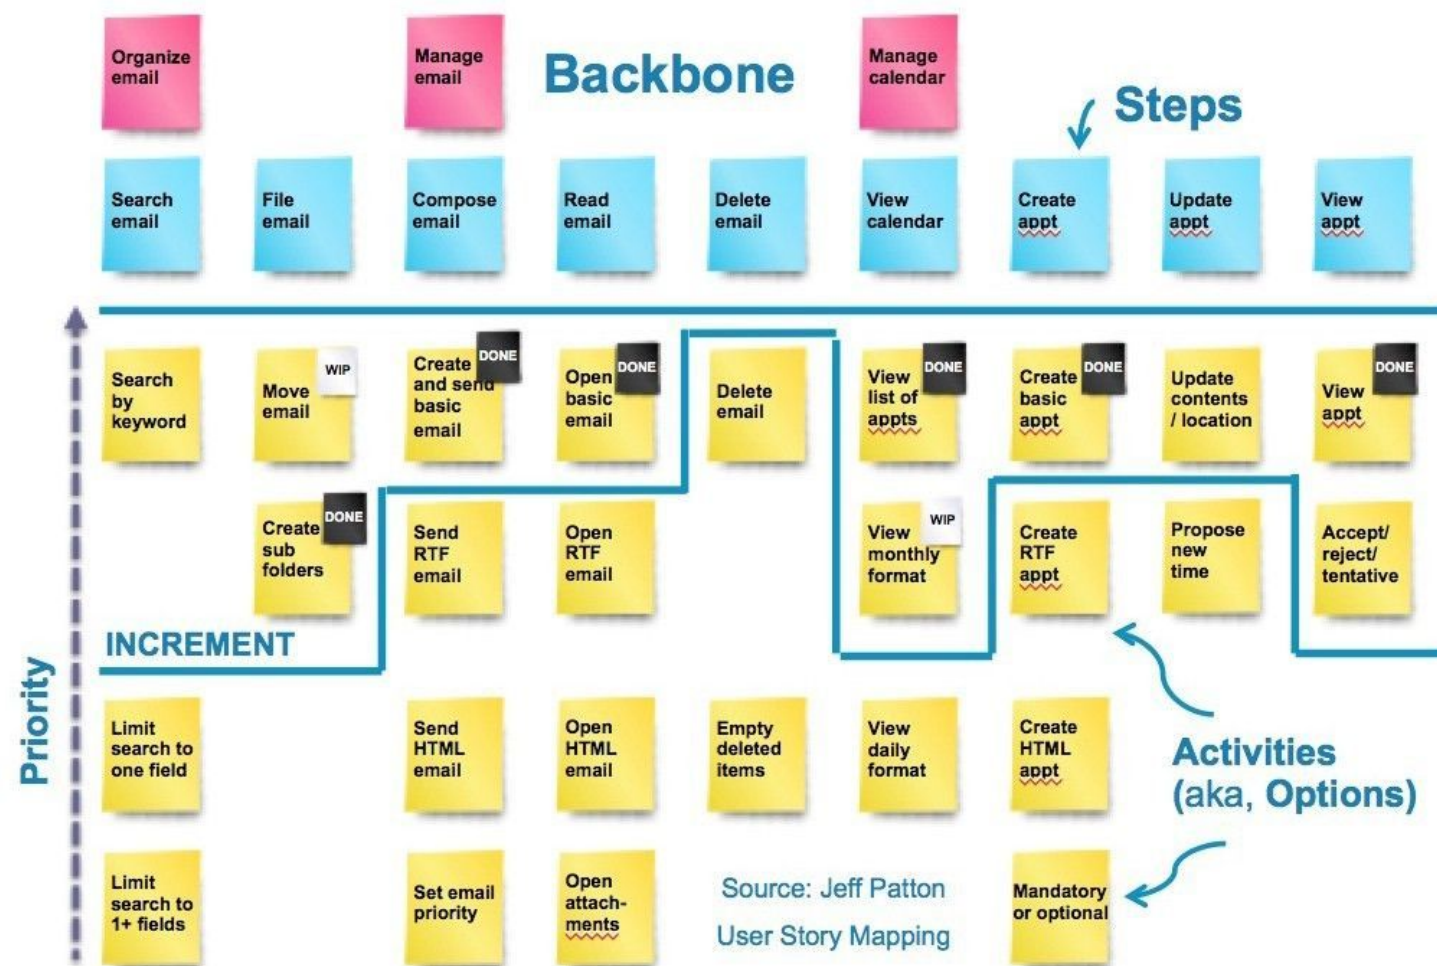

CUSTOMER/USER JOURNEY MAP

User Story Mapping

Helping to focus on the bigger picture

- Outcome oriented
- User centred prioritisation
- Focus on end to end journeys
- Fast & Efficient planning process

Continuous Discovery

Instilling the behaviours of discovery throughout the Agile Lifecycle

Making it Happen

2012

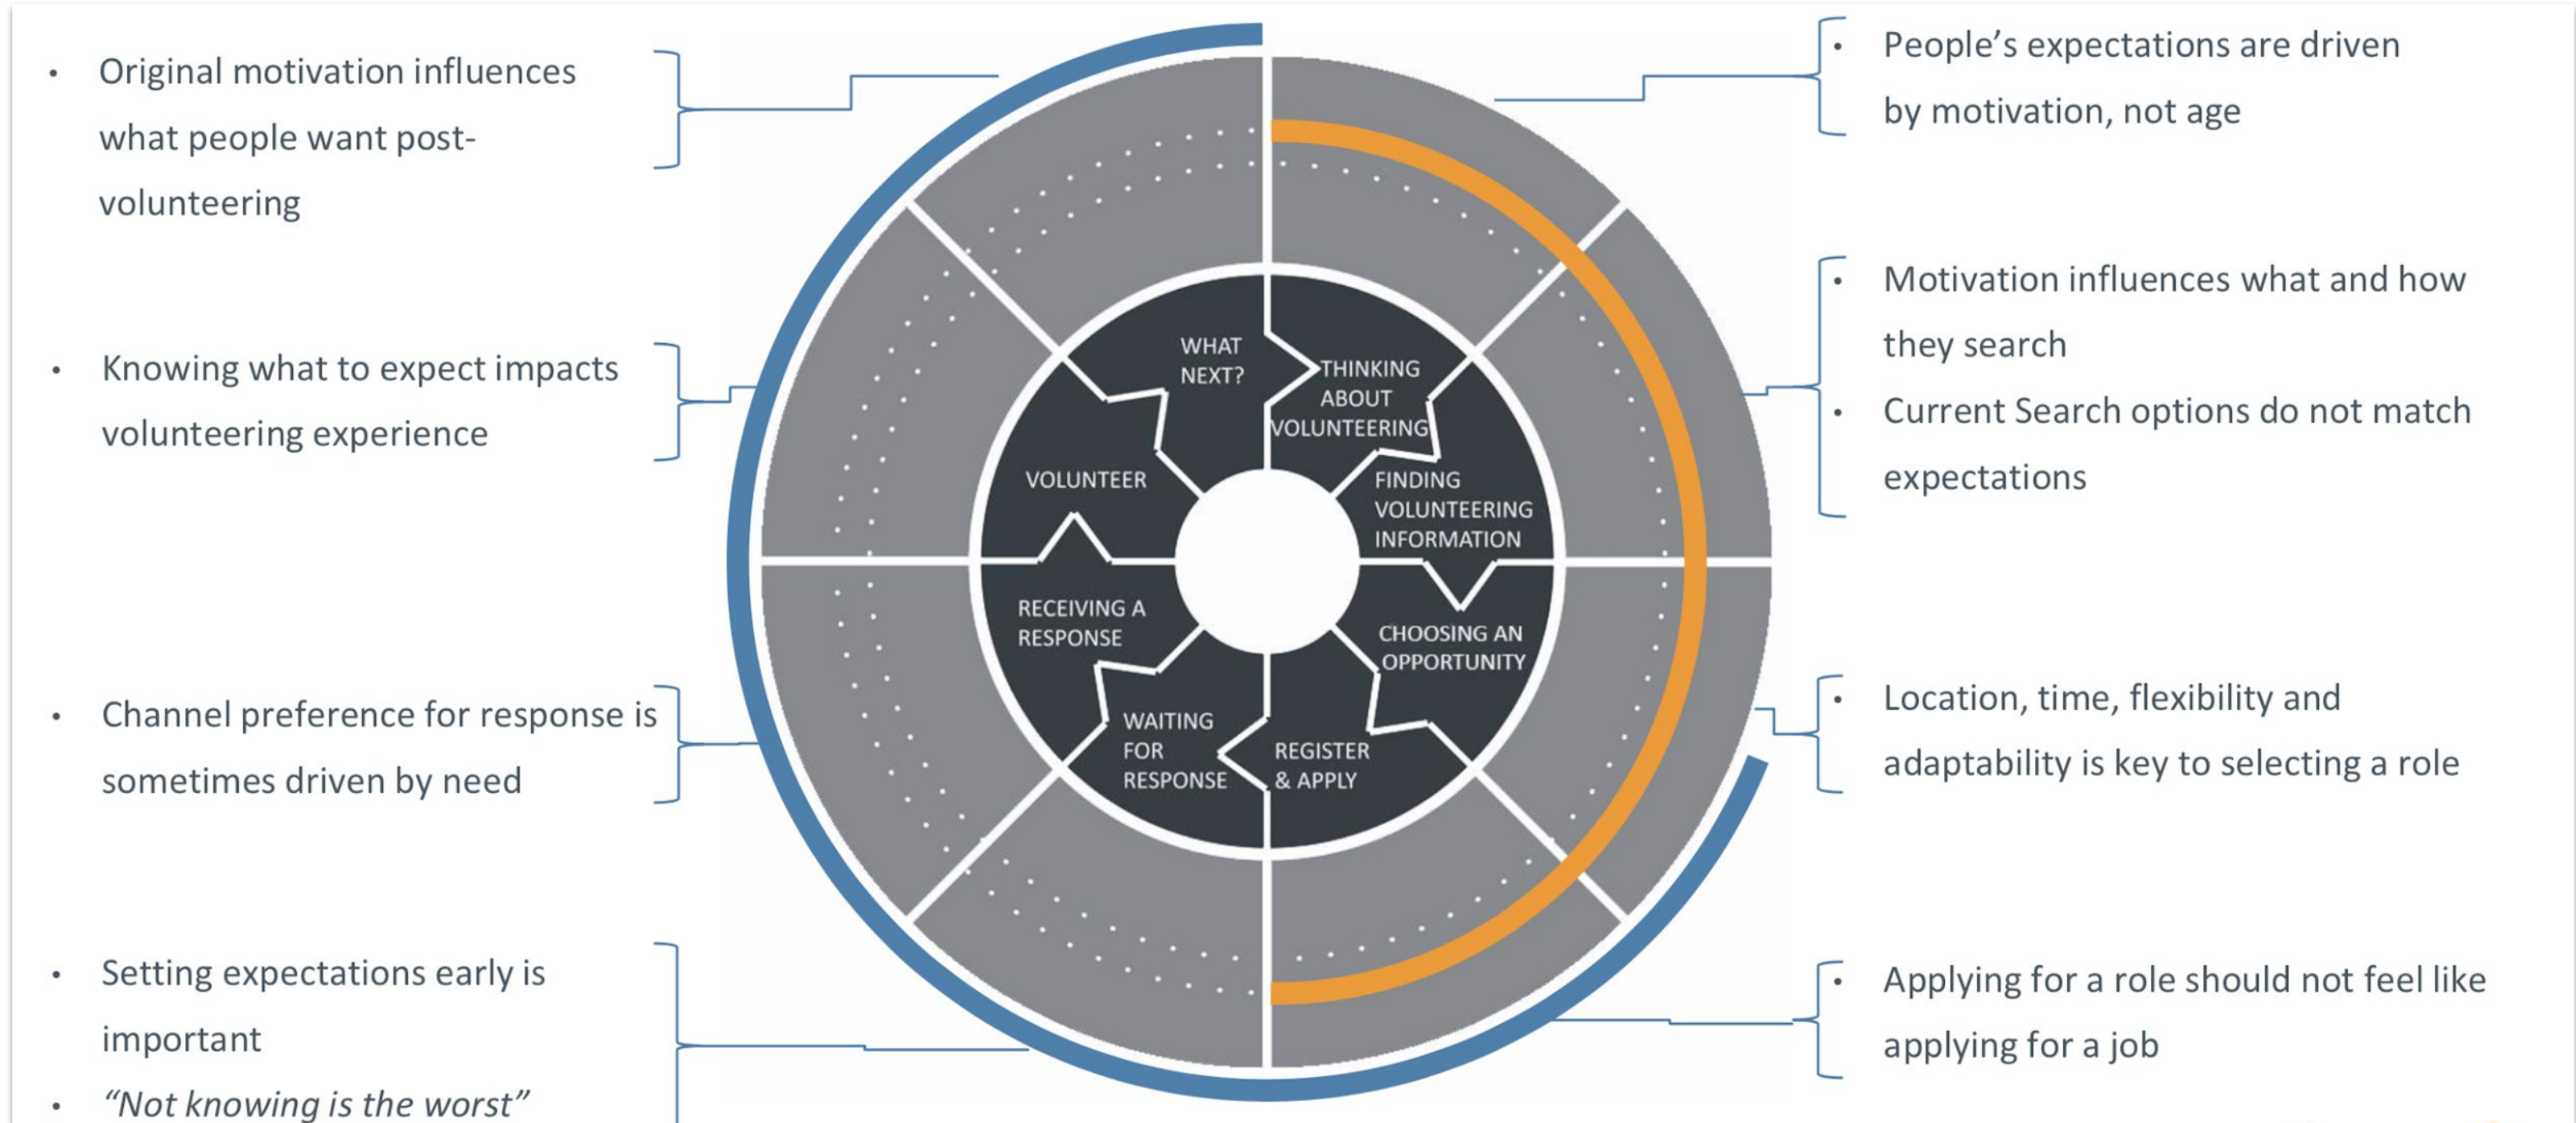

2018

Engagement

+344.1%

Bounce Rate

-23.3%

Conversion Rate

6.7%

So....

“Successful problem solving requires finding the right solution to the right problem. We fail more often because we solve the wrong problem than because we get the wrong solution to the right problem.”

Thankyou
