

DRUPALCON VIENNA

A Top to Bottom Performance Workshop

Anthony Lindsay - Lead Support Engineer,
Annertech

Contrived Examples Inspired by Real Life

Many production sites gave their lives to
inspire this talk

We're not concerned with specialist hosting magic.

We'll look at stuff applicable to every site.

Live Performance Demo

{INSERT HECKLING HERE}

THE PRINCIPLES OF PERFORMANCE

1. Put Less Rubbish On Your Page

You must put these dreams aside,
they will only break your heart.

2. Make your assets...

smaller

3. Minimise the payload

4. Minimize HTTP requests

- 5 (a). Do things less often.
- 5 (b). Do things once - and
cache.

6. Use your tools

7. Never Forget Your Mobile Users

8. *Always champion performance*

Thank you!
